

Carl Henry- I Wish

I wish we could be all as one
I wrote this song from my heart for everyone
Sometimes I wish there wasn't a space
Between the things people do and the things
they say
I wish every child was able to see
All the opportunities that flow right by you
and me
Don't ya'll wish you could love someone
And make it clear without fear they'll betray
your trust?

CHORUS:

I wish we could be together
I wanna be with you
May take time
But we can be together
I wanna be with you
Even if you gotta lie
Just say you'd leave me never
I wanna be with you
Oh I wish we could be together
I wanna be with you

I wish we could be all as one
Take two different melodies and make them
one song
Sometimes I wish y'all could see
Oh me for who I really am
Just let me be
Ya'll know that love is special and love is kind
It can take one man change his heart and
mind
And with that said
I wish it was so
That we could plant the seeds of love and
watch it grow

CHORUS

I can't believe this
My wish has got me goin' out my mind
What do I have to do?
'Cause girl, I wanna be with you.

CHORUS
